
Website Link/Something From Godzilla movie

Posted by askiera - 2007/07/27 08:50

From the directory page, when you click the link to my website, it is garbled. Why?

Ann,

This is an external link. We can't control content outside of wcr-tn.com.

Solutions:

1. Check to make sure that you entered the correct website address when adding your entry. You can edit this by going to your listing and clicking on "Edit". Just make sure you are logged in.
 2. Check with your webhost/designer to make sure that your domain isn't being pointed to another site, that the name servers are correct, or that the url hasn't been hijacked by a hacker. Also, have them make sure that your domain is locked.
